CARE & MAINTENANCE

Switch off and let the fixture cool. Dust with a soft, dry cloth; no solvents or abrasive cleaners.

WARRANTY & RETURNS

1-year limited Returns accepted within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged, send a photo within 7 days and we ship a replacement first.

PACKAGING

Ships in one long carton sized to the width chosen; mounting hardware included

For your electrician

ELECTRICAL

LIGHT SOURCE	LED strip, warm or bright white
COLOR TEMPERATURE	Warm white or bright white (per option)
INSTALLATION	Flush wall mount above vanity

WIRING (GENERAL GUIDANCE)

FIXTURE WIRE	CONNECT TO
● Black (or ribbed)	Line / hot
○ White (or smooth)	Neutral
● Green / bare copper	Ground

1. Turn power off at the breaker and confirm it is off with a non-contact tester.
2. Fix the mounting bracket to a recessed wall junction box rated for the fixture's weight, using the hardware supplied.
3. Make the connections above with approved connectors and fold the wires neatly into the box.
4. Fit the backplate, install bulbs within the rated wattage, restore power and test.

BEFORE YOU INSTALL

- ☐ A recessed wall junction box at the planned mounting height
- ☐ Supply voltage confirmed for your region
- ☐ Wall surface flat and able to carry the fixture's weight
- ☐ A dimmer, if used, rated for the light source
- ☐ Power off at the breaker before any work begins

PLACEMENT GUIDELINES

ABOVE A MIRROR

Centre the fixture about 75–80 in (190–203 cm) above the finished floor, just above the top of the mirror.

WIDTH

Choose a fixture roughly 75% of the mirror width, never wider than the vanity.

BATHROOMS

Suitable for damp locations only where rated; keep clear of direct water spray.

> **Safety.** Turn off power at the breaker before installing. Installation must follow local electrical codes (the NEC in the US). We recommend a licensed electrician for every hardwired fixture. Never exceed the rated wattage.
